Our Philosophy?

The initial aim is for the city of Melbourne to witness a diverse range of approaches in expressing the concept of Peace. In addition, to observe if and how the performances can engage people in holding hands to form a circle at 4:00 pm for a few moments. This act will end with the release of white doves in hope for a true Universal Peace being the ultimate aim.

On this day, let us find out together what we collectively think Peace feels like and taste a symbolic glimpse of it.
